COMMODORE'S REPORT - Wayne Spratt

I hope the autumn fishing has been serving you well. I hear there are some good catches of snapper still being caught.

A big thank you to our volunteer radio operators, this is a vital component of our safety operations for members. Good to see members using this facility and logging your trip.

Over the past few weeks Linda has been trialing evening meals on the weekends. They are very tasty meals and it would be great to see more members support this initiative. So if you feel like a meal on Friday or Saturday call into the club. Children's meals are also available.

The dive compressor is now up and running. Divers are supporting this facility and filling their bottles at the club. It is great for us to support our divers as the club supports all forms of fishing and boating as indicated in our charter.

This year is coming to a close with the AGM approaching. We look forward to more members becoming involved within the committee as many hands make light work and positive input will help the club flourish. Please consider volunteering for the committee in the upcoming year.

Finally I would like to thank all the committee members and volunteers for their support and contributions to the club for the past year.

WBC - Club Rules For the Weighing of Trophy Fish - 2010-11

1. Open to financial members (and their immediate family) of the Waikanae Boating Club.
2. Boys and girls under 16 years are eligible for junior and senior classes.
3. For a fish to be eligible for weighing, it must have been caught from a boat which has neither long lines or set nets on board and has been launched and retrieved at WBC.
4. The fish to be weighed is only eligible if caught on a rod or hand line.
5. Only intact fish (not gutted) are eligible for weighing.
6. Fish to be weighed must be done so as soon as possible upon coming ashore, not brought back at a later date to be weighed. (There is no weighing after sunset.)

WEIGHING PROCEDURE:

- Members wishing to weigh fish should contact club nominated Weigh Master, who will weigh, and if required, record the details.
- If members are unable to contact the weigh master they may contact a competent committee person to carry out the weighing. (Committee members who have demonstrated competence with weighing fish to the satisfaction of the weigh master)
- The Weigh Master and committee are not to weigh fish caught by themselves but contact another committee member to carry out weighing, who was not on the boat.
- Fish to be weighed for club events and records are to be weighed on the flat bed certified scales only. NOTE. Other scales may be used only as an indicator
- Only fish weighed by the Weigh Master or a competent committee member will be recorded.
- The Weigh Master is the custodian of the master log.
- The blackboard is merely a copy of the entries in the log book. Entries on the board that are not in the log book will be erased.
- Fish caught in WBC competitions **are eligible** to go on the trophy board.
- The Weigh Master is _____ ph _____ (to be appointed)
